CORE

# We'll be using WhatsApp Communities to keep our graduates connected

- **Communities** connect multiple group chats under one umbrella to organize group conversations on WhatsApp.
- We've made group chats for graduates under the umbrella of 'Coach Core', and every past apprentice is invited to join.
- Alongside the group chat relevant to your area, you'll be a part of an announcements thread.

# Important Things Before You Get Started

- If you don't want your phone number seen by others, you'll need to change your settings: Go to go to community/group info, and click on phone number privacy. Your phone number will no longer be visible in the chat to others unless already saved.
- Adhere to the rules **at all times** when using our group chats.
- Coach Core will be monitoring these chats and the content in them. Please use external chats for personal conversations.
- If you see anyone breaking the guidelines, please actively report this to an admin for us to investigate
- If you are unsure of how to use the group chats, contact us and we'll advise you.
